

AQX Engineering, Inc.

Consulting Services in Structural Engineering

New Services from AQX Engineering!

We now can provide civil engineering services for site improvements and land development projects, from single family residences up to large residential, commercial, and institutional projects. These services include, but are not limited to, grading plans, hydrology reports, erosion control plans, and water quality management plans. Also, we now do street/sidewalk projects and/or improvement to meet ADA requirements. The following is a list of some sample projects we have completed.

- Precise grading plans:
 - Oberlin Residence
 - ⇒ Remodel project in Orange, CA
 - ⇒ House with pool
 - ⇒ Lot size: 11,300 sq. ft.
 - Mills Residence
 - ⇒ Narrow lot, Balboa Island, Newport Beach, CA
 - ⇒ No landscaping, all hardscape grading
 - ⇒ Lot size: 2,550 sq. ft.
 - Chang Residence
 - ⇒ Lot 78, Laguna Hills, CA
 - ⇒ Custom home with pool on hillside lot
 - ⇒ Drains to hillside
 - ⇒ Hydrology Report
- Street Improvement
 - ⇒ Montclair, CA
 - ⇒ Provide drainage, grading plans for alley pavement reconstruction on Evert St. and Pradera Ave.
 - ⇒ Sidewalk and street improvement comply with ADA requirements
- Single/double truck loading docks for Mother's Markets in Costa Mesa, CA
